1. What Are Cookies?

Cookies are small text files placed on your device when you visit a website. These files collect standard internet log information and visitor behavior data, helping us understand user interaction, personalize content, enable secure features, and enhance your overall experience.

Cookies do **not** harm your system or contain malicious software. To learn more about cookies, visit All About Cookies.

2. How to Manage Your Cookie Settings

Using Our Cookie Preference Manager

You can adjust your preferences at any time through our **Cookie Settings Manager**, accessible at the bottom of every webpage.

Via Browser Settings

Most web browsers allow users to manage their cookie settings. You can:

- Block or delete cookies.

- Set your browser to alert you when a cookie is being used.

However, disabling cookies may limit certain functionalities, such as remembering login details or language preferences.

Browser-specific cookie guidance:
